- ◆ Preservation
- ◆ Cataloging and Metadata
- ◆ Organizational Review and Restructuring
- ◆ Strategic Planning and Assessment
- ◆ Grant Writing Fundraising
- ◆ Technical Services Workflow
- ◆ And More

“The LYR^{ASIS} consultants made brilliant onsite recommendations, showing tremendous insight, and were very helpful in putting special collections in context for me, since they know the field so well. They had instant credibility with everyone they met here. We were thrilled with the consultants' report. It is enormously useful to me in planning the future direction of this department.”

Lynn Sutton

Director, Z. Smith Reynolds Library
Wake Forest University

Program Benefits

As the information profession continues to face unprecedented challenges, you're expected to do more with less. LYRASIS consultants fully understand the library environment, and the unique challenges facing libraries today. Here's how Consulting Services can help you assess your organization's challenges and achieve specific goals.

FREE Estimates

Our broad range of consultants provide an in-depth project assessment based on your objectives. There's no obligation, so you have nothing to lose.

Cost-Effective Solutions

Because every project is uniquely designed, our fees fit your budget and are not based on a one fee fits all approach. This customization makes LYRASIS' Consulting Services more affordable than you think.

Work with Industry Experts

LYRASIS Consultants are librarians who understand firsthand the challenges of library professionals. The vast knowledge of our nationally recognized consultants enables us to help you in a wide range of subject areas.

Objectivity

As an outside facilitator, we can help you develop a clearer picture of your challenges, and create a focused plan for success by providing objectivity in designing strategies specifically for your organization.

CAL SHEPARD
Manager of Consulting Services

Broad Industry Knowledge = Smart Solutions

We've handled projects spanning several months to half-day consultations by phone. Regardless of your size or budget, our team can help.

Sample projects showcasing our smart, affordable and manageable solutions:

- ♦ Analyzed and provided recommendations to libraries of all types and sizes to improve technical workflow
- ♦ Facilitated a meeting of local institutions to develop a collaborative digitization project between five institutions
- ♦ Developed comprehensive technology and library services plans for large university systems, community colleges, and large and small public libraries
