

Instructions for Submitting a Traditional Innovation Theme PROPOSAL to the Catalyst Fund Applications Due by: February 23, 2024

Step 1: Confirm that you want to submit a Proposal, not an Idea.

Through a **Proposal**, you are requesting funds to pilot a project directly. Funds will be awarded to your organization if the Proposal is selected. Your organization will be responsible for conducting the project.

If you are presenting a concept that you believe will benefit the field, but which you would like Lyrasis to research and develop, then submit an **Idea** to the Catalyst Fund instead of a Proposal. Ideas are recommendations for Lyrasis staff to design, investigate, and potentially address as new programs, services, or solutions for members, and the field at large. The instructions and template for Ideas are available at the [Catalyst Fund website](#).

A Lyrasis member organization may be the lead applicant and submit no more than ONE Proposal and ONE Idea to the Catalyst Fund each year. In 2024, we are piloting a project to expand our applicant pool to reach additional library institutions, including public libraries. If you are a customer of The Palace Project, BiblioBoard or the Indie Author Project, you are eligible to apply but will be required to meet with Catalyst Fund staff prior to submitting your application. Reach out to catalystfund@lyrasis.org to schedule your meeting.

The staff will do their best to accommodate all potential applicants. However, based on demand, the staff may not be able to meet with applicants after **February 12, 2024**.

Step 2: Review the criteria for Traditional Innovation Theme Proposals

Traditional Innovation Proposals will be evaluated according to the following criteria:

- What is the potential for the Proposal to **impact** and serve the broad LYRASIS community?
 - Is it a common and/or shared issue for members of the LYRASIS community?
 - Are the outputs scalable beyond a single institution?
 - Is the Proposal of interest to others outside of your organization?
- Does this Proposal **innovatively test-and-try** a solution to a well-defined problem or explore the feasibility of a well-defined opportunity?
- Does the Proposal **advance an important objective** of the library, archives, museum, and/or complementary research communities?
- Is the **plan of work appropriate** to the project's goal, and is the budget reasonable and justified?

In this category Lyrasis is especially interested in projects that provide templates or ideas that can be used to spark innovation, business models, or concepts for the museum, library, archives or research communities to solve common or shared challenges.

All applications will be evaluated on the strength of needs/case statements and how well results can be adapted and used in initiatives serving cultural and scientific heritage organizations.

If you wish to submit a Proposal to continue work on a project previously funded by the Catalyst Fund, you may apply. The application will receive no special consideration and will be judged by the same criteria as others. The work on the previous Catalyst Fund project must be completed and the required final report submitted to Lyrasis prior to submission of a new application. In addition, the new Catalyst Fund submission must include a description of the earlier funded project's accomplishments as well as new proposed activities.

Please note that the Catalyst Fund Program Lead and the Lyrasis Grants Administrator are available to meet with organizations to review concepts and grant narratives and provide feedback on your application prior to submission. Applicants are encouraged to speak with staff prior to submission. Contact catalystfund@lyrasis.org to schedule an appointment.

Lyrasis staff will review draft applications up to two weeks before the application deadline. Drafts should be sent as MS Word documents to catalystfund@lyrasis.org. Drafts are not required but are highly encouraged. Comments provided will be suggestions only and do not imply any specific outcome from the review and selection process.

The staff will continue to work with institutions and provide feedback on drafts up to one week in advance of the grant deadline but may not be able to provide a written review.

Step 3: Prepare and Submit your Proposal

To submit a Proposal,

- A. Prepare a two-page narrative description as a PDF following the template described below. A template in MS Word format is available through the Catalyst Fund website at <https://www.lyrasis.org/Leadership/Pages/Catalyst-Fund.aspx>.
- B. Complete the online submission form and upload your two-page Proposal PDF at <https://www.lyrasis.org/Leadership/Pages/catalyst-fund-proposal-form.aspx>.

It is best to gather and prepare the information in advance of filling out the online submission form as you cannot save the form mid-process and return to it at a future time.

A. The Proposal Narrative

Follow the template described in the table below to make your Proposal. The template is offered for optional download in MS Word format through the Catalyst Fund website at <https://www.lyrasis.org/Leadership/Pages/Catalyst-Fund.aspx>.

- Font must be 10 point or larger.
- Margins must be 0.5 inches or larger.
- The final product must be converted to a PDF for submission.
- The Proposal cannot exceed two pages. Proposals longer than two pages will be rejected.

Sustainability does not need to be addressed unless you are creating OSS. Provide names and titles for the principal investigator(s) and other key participants in the project.
