NEW

LYRASIS Classes

The classes listed below will be offered for the first time in 2018 – 2019, and then added to the Learning Library for on-demand access. This list is not comprehensive and additional sessions will be added to the schedule as we respond to member needs and emerging areas of interest. More classes from our existing curriculum will also be offered and the full schedule is available at www.lyrasis.org/classes

Scheduled Release Date	Class Title	Description	Instructor	Class Hours
7/24/2018	Introduction to Project Management	Implementing a systematic approach to project management can drastically improve the outcomes for an initiative as well as create a more efficient workflow in information organizations. This course is designed to provide an introduction to project management strategies and implementation for the information professional. The primary focus of the course will be on the core values of project management. This course is not specific to technology project management.	Jodie Borgerding, Consulting & Education Services Manager, Amigos Library Services	4
8/1/2018	Free(ish) Project Management Tools	We have all been there, collaborating on a project that tends to get derailed. Many times it is simply due to a lack of organization, communication, and planning. Instead of hiring a certified project manager, try some of the free(ish) tools designed to keep your project on track. This course will provide a basic introduction to the project management lifecycle, with a focus on executing and monitoring. We will also learn about a number of free(ish) project management tools that can help your team successfully complete the project.	Jodie Borgerding, Consulting & Education Services Manager, Amigos Library Services	1
8/30/2018	Free Tools for Digital Preservation: Web Archiving	In this session will instructors will introduce and demonstrate tools used to capture and preserve various kinds of web content. The class will begin with a description of the WARC (Web ARChive) format, along with tools that can create WARC files. The class will review tools used to preserve various social media content, best practices for describing web content, and challenges in description, will also be addressed in the session.	Annie Peterson and Hannah Rosen, LYRASIS	2

Scheduled Release Date	Class Title	Description	Instructor	Class Hours
8/29/2018	Generation Z: Libraries and Post-Millenial Generation	We've all heard about Millennials, but what do we know about the next generation, Generation Z? According to the American Marketing Association, Generation Z, or those born at the dawn of the 21st century, are just now starting to enter college and the workforce. How can we prepare to meet these new users and tailor our services to their needs? In this hour-long session we will explore the characteristics and demographics of Generation Z, focusing on education and leadership. We will brainstorm and discuss ways libraries can provide services and programs tailored to this group and offer tips for library managers who will be supervising Generation Z staff.	Jodie Borgerding, Consulting & Education Services Manager, Amigos Library Services	1
9/27/2018	Negotiation for Librarians	Does the idea of negotiating with vendors, administrators or community members make you nervous? Or do you just worry you don't have the skills and experience necessary to represent your library effectively? If you fit into either of these categories this session is for you. This practical one-hour session with provide you with research on what productive negotiation looks like, how you can use your own strengths to make yourself a confident negotiator, and key techniques for preparing for any type of negotiation. The session will provide real-world library examples that you can apply immediately to your next meeting or conversation.	Beth Ashmore, Metadata Librarian for Serials and Electronic Resources, Samford University	1
10/16/2018	I Agreed to What?! Privacy and Social Media	Facebook, Twitter, LinkedIn, SnapChat -- Are you on one of these? Two? Three? Every day, social media platforms are becoming more and more intertwined with our daily lives and work. However, recent developments, such as the Cambridge Analytica Facebook scandal, have prompted a lot of discussions concerning how much social media platforms know about you, how much information they share with others, and who they are sharing that information with. Buckle up and let's take a trip on the dark side. Find out what you agreed to when you accepted their Terms of Service!	Jodie Borgering, Consulting & Education Services Manager, Amigos Library Services	2
Fall 2018	Practical Privacy for Libraries	Libraries are well-known for defending the privacy of our patrons. In the past year, the Library & Information Technology Association, has created lists of specific actions libraries can take to safeguard privacy. In this workshop, we will delve into these actions and discuss the practicalities of implementing their guidance..	Jodie Borgerding, Consulting & Education Services Manager, Amigos Library Services	2
Fall 2018	Selecting a Digital Asset Management System (DAMS)	In this session will instructors will introduce and demonstrate tools used to capture and preserve various kinds of web content. The class will begin with a description of the WARC (Web ARChive) format, along with tools that can create WARC files. The class will review tools used to preserve various social media content, best practices for describing web content, and challenges in description, will also be addressed in the session.	Annie Peterson and Madeline Sheldon, LYRASIS	2

Core Content Development Areas

LYRASIS is continuing to develop new classes based on member feedback and focusing on the four following curriculum areas:

- **Content Solution** classes focus on topics such as licensing and negotiation, and scholarly communications.
- **Leadership and Emerging Trends** classes focus on training to enhance participants' understanding of leadership and management concepts and skills.
- **Preservation Solutions** classes focus on caring for your analog or digital collections to facilitate long-term access to collections.
- **Technology** classes focus on training to further your technical skills related to digital collections, or help you plan a digital project. Technology classes also cover new technologies and the relationships between libraries and technologies.
