The Palace Project

A new digital platform that puts libraries first

The Palace Project is rooted in our commitment to a library-led digital future.

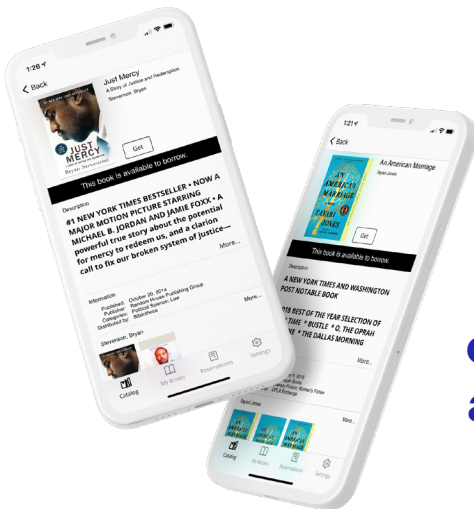

The Palace Project objectives:

- **Bolster** the direct relationship between libraries and their patrons
- **Give** libraries greater control over acquisition and delivery of e-content
- **Advocate** with publishers on behalf of libraries
- **Protects** patron privacy

The library really
is a palace. It
bestows nobility
on people who
otherwise couldn't
afford a shred of it.

**Community Engagement Tools
In Your Library, For Your Community**

 biblioboard

**Indie Author
Project**

Expand your community engagement and turn your patrons into creators. BiblioLabs lets libraries and their communities create, share, and discover original and unique content.

We work with our members and users
across the globe to foster and fund
innovation, design vital programs and
services that increase the value and impact
of knowledge communities, and we develop
and sustain technology solutions for all
collections-holding institutions.
